Created in 2007, **ARTIS SARL** is a French company specialised in the organisation, manufacture, assembly, monitoring and maintenance of piping and buried pipelines for fluid transportation with metallic tubes and accessories.

The mastery of these techniques requires a high level of Health, Safety and Environment requirements to be integrated from the product design until the project is finalised and received.

ARTIS SARL, as a major actor in a constantly evolving sector, wishes to be a driving force in terms of Health, Safety and Environment with a view to ensuring its sustainability based on three main axes:

- ✚ Strengthen its brand image & satisfy the demands of customers.
- ✚ Guarantee the physical and mental integrity of employees.
- ✚ Maintaining synergy within the company, driving continuous improvement

In this work dynamic, we have defined areas of improvement for our company:

- ✓ Ensure regular medical follow-up for all our employees.
- ✓ Ensure that penalty factors are considered in accordance with the regulations.
- ✓ Circulate our HSE culture through regular internal communication.
- ✓ Increase field audits to ensure the proper implementation of our HSE objectives.
- ✓ Ensure the preventive maintenance of our infrastructures and material means
- ✓ Increase the recycling percentage of our waste products.
- ✓ Organize feedback at the end of works onsite to identify areas for continuous improvement.
- ✓ Allow all our employees to benefit from an annual interview.
- ✓ Maintain our accident indicators below the industry average

Our ambition is to be MASE certified in 2017.

Of course, these challenges are the responsibility of all, and as such we implement all the technical, human and organizational resources to achieve our objectives by constantly questioning the benefits acquired by these Certifications in an industrial sector, Increasingly competitive.

We also ask all employees to get involved in these efforts to ensure that they are implemented on time.
